CRAFTING A LEGACY OF SIMPLICITY

A husband and wife team, each partner brings their individual strengths to the design process. With her keen creative eye and architectural background, Deirdre defines the holistic vision - from furniture collection to manufacturing processes. Trained as a master woodworker and luthier, Bob's deep material knowledge and passion for precision enhances and informs their craft.

Deirdre and Bob view their collection as an ongoing effort to bring authenticity to their designs through revealing processes and honest use of materials. Whether it is the natural jagged edge of the torch-cut slab steel or the hand burnished luster of lacquered wood, each Troscan piece describes the intimate relationship and natural lineage between the designing and the making.

Elemental materials such as wood, stone, steel and bronze are treated with techniques to reveal their innate beauty and inherent strengths. Bob and Deirdre seek inspiration outside of their field - often partnering with rural makers and material sources that include innovators in boatbuilding, musical instrument making and sculpture - to achieve their vision and aesthetic goals.

Founders Deirdre Jordan  
and Bob Robinson
